28.06.2024

What have we been up to this week?

It has been so hot this week that we have been playing outside in our paddling pool to cool down. The children are aware of how to stay safe in the heat - wear suncream, wear a hat and drink lots of water.

We have continued reading 'sharing a shell' and the children have loved making their own shell using a paper plate. They have been practicing using the iPads to take a picture of their friend and then sticking their picture onto their shell.

Word of the week

Bristleworm - a small worm that lives in the ocean. The bristleworm shares a share with the crab and the anenome in our story.

Maths challenge

Can you count back from 5? Sing zoom zoom zoom we're going to the moon (song can be found on YouTube) and practice counting backwards.
